

# Radiant Procurement

Streamlines the complete purchasing process for your entire fleet using our new innovative workflow.

**RadiantFleet's** vessel clients allow seamless collaboration between on-board crew and office purchasers. Manage your inventory catalog, your providers and your contracts easily using our smart tools and save time by avoiding repetitive tasks like creating and sending out requests for quotation. Automatically restock configured inventory items to ensure you get the right quality and quantity of goods, delivered at the right place and right time, for the best possible price.

## Features

- Integration with Inventory & Finance

Experience total control over your supply chain—efficient, transparent, and **built for the maritime world**.

Set Sail with **Smarter Procurement**.

**Smarter Purchasing. Seamless Supply.**

**RadiantFleet**  
Maritime Software Solutions

## Why Radiant Procurement?

### Built for Maritime Operation

Tailored to the complexity of shipboard and fleet-wide procurement, both online and offline.

### Workflow Control

Manage requisitions, quotes, orders, and deliveries with full transparency and traceability.

### Vendor Efficiency

Streamline communication and simplify quote comparisons to choose the best suppliers.

### Budget Oversight

Stay within budget limits and gain insights into spend with real-time analytics.

### Unified Ecosystem

Seamlessly integrates with RadiantFleet's Inventory, Finance, and Crewing modules for smooth, end-to-end operations.
